

DLMT LASER MEASURING TOOLS

Available in two models, the DLMT range of laser measurers enables rapid and easy measurement to most surfaces.

- Simple to use
- Auto Power Off function
- Area & Volume calculation
- Compact design
- Complete with carry pouch

The DMLT1 has a range of up to 30m, while the DLMT2 increases to 60m, with typical measurement times of around 1 second.

Its compact size and illuminated display provides ease of use even low lighting conditions.
