

Need to locate or avoid buried pipes or cables?

TOMKAT 2 Pipe & Cable locator & Signal Generator ***The Professionals Choice***

The TOMKAT 2 Cable Locator

The TOMKAT 2 is a full function industry standard pipe and cable locator.

Better in design, the TOMKAT 2 is rugged, lightweight and packed full of features including a detachable speaker that can be held close to the ear for use in noisy environments.

Fingertip controls allow for adjustment to the sensitivity control enabling rapid switching between the TOMKATs three operating modes.

The TOMKAT 2 is used to assist in the location of buried pipes and cables to a depth of 3 meters and offers three modes of location.

POWER MODE

Locates live cables radiating a detectable signal.

RADIO MODE

Locates buried metallic conductors carrying a detectable vlf signal.

GENERATOR MODE

Locates buried metallic conductors carrying a detectable signal by induction or connection using the signal generator.

SIGEN 2 - Signal Generator

The Signal Generator is a full function, industry standard transmitter operating on 33kHz, the Signal Generator applies a signal either by induction or connection and supplied as standard with connection leads, earth stake and 3 pin plug connector to enable live cable connection via a mains socket.

Best of all the TOMKAT & SIGNAL GENERATOR are completely compatible with other makes of location equipment operating at 33kHz
